

DESIGN FOR DIGITAL & PRINT

NEWS LETTERS

We craft newsletters for companies like *Ti2* and the *PROFIBUS* Association, delivering key industry updates and insights. Our content ensures your audience stays informed and engaged.

EVENT MATERIALS

We design impactful event materials for associations & corporates like IICA, Ampcontrol, PAANZ, and Sydney Water. From tech event flyers to promotional content, our creations ensure your events stand out and resonate with your audience.

SYDNEY TECHNICAL TOUR OF NORTH HEAD WATER RESOURCE RECOVERY FACILITY

The North Head Water Resource Recovery Facility is one of 29 water resource recovery facilities in Greater Sydney. It is where the water is treated to a primary standard before releasing it to the ocean via a deepwater ocean outfall which includes continuous monitoring and regular tests done to check for any impact on the marine environment.

Discover how the plant's efficiencies save 1.8m litres of drinking water a day by using recycled water for purposes such as cooling, odour treatment and washing filters. How they have worked to improve water quality in Sydney Harbour. In the Northside Storage Tunnel, which starts 40m below sea level west of the river Lane Cove and ends 100m below sea level at the wet well at North Head STP.

You will learn about the plant's innovative hydro-electric generator and a co-generation plant, which uses methane gas generated during the production of biosolids. Up to 63% of the electricity used at the plant can be saved each day through these processes.

See all the process units of one of the largest primary treatment plants in the world. Processes like screening, dewatering, large above ground digesters, biosolids dewatering and out loading, both chemical and bacterial odour scrubbing, as well as excess gas burners.

And finally, the plant's hybrid SCADA (Siemens S7-400 based PLC/Schneider ClearSCADA interface) will be discussed by the host as well as the suitability of using sophisticated communications in a corrosive atmosphere.

In collaboration with Sydney Water, the IICA invites you to join us for a visit to the North Head Water Treatment Plant and venture within the tunnel for a full exclusive tour of the operations of this plant.

Followed by opportunity to network and Q&A session.

Friday, 8th September
7:30 AM - 9:30 AM
 North Head Wastewater Treatment Plant,
 2 Bluefish Dr,
 Manly, NSW 2095

Members complimentary
 Non members \$25 pp
 Please register early to guarantee your place. Places are limited.

RESMED FACILITY TOUR: DISCOVERING INNOVATION IN RESPIRATORY HEALTHCARE

RESMED, 1 ELIZABETH MACARTHUR DRIVE, BELLA VISTA, NSW 2153

SEE
 SEE why ResMed is a global leader in the development, manufacturing, and marketing of innovative medical products for respiratory disorders.

DISCOVER
 DISCOVER the manufacturing process of life-saving medical devices that meet the worldwide demand. Witness firsthand the advanced automated manufacturing technology that enables ResMed to stay competitive and serve millions of customers worldwide.

LISTEN / HEAR
 LISTEN to how ResMed's automated manufacturing technology aligns with their guided environmental policy, promoting waste and pollution reduction, the use of reduced-impact materials, and fair labour practices globally.

This event promises valuable insights into ResMed's contributions to the healthcare industry and its commitment to sustainability and responsible manufacturing practices.

IICA TECHNICAL EVENTS

AMPCONTROL FACILITIES WELSHPOOL TOUR

Ampcontrol is a leading provider of integrated electrical and electronic technology equipment with a focus on specialist Power & Automation projects across the resourcing, infrastructure, and renewables sectors.

If you're interested in learning more about this innovative company, be sure to join us on Thursday, July 20th, for an exclusive tour of Ampcontrol Facilities Welshpool.

During the event, you will get to see some of the Stand Alone Power System solutions that this Renewables division of Ampcontrol have been working on and also chat to some of the Team about this division along with the other divisions of Ampcontrol across the country.

The tour will include an overview of the Welshpool Capabilities and a Q&A session afterwards where you can learn more about the innovative solutions and ask any questions you may have.

You'll also have an opportunity to network with like-minded professionals while enjoying food and drinks, making it the perfect opportunity to connect with others and stay up to date with the latest industry trends.

Thursday, 20th July, 2023
 6:00 pm - 8:00 pm

41a Kewdale Road Welshpool 6106 AUSTRALIA

INTERNATIONAL ORGANIZATION OF STANDARDIZATION

ISO: TC199 SAFETY OF MACHINERY

Newly Revised Machinery safety standards and their applications

DAY ONE TOPICS:
 Welcome / Safety Information / Admin Issues
 Safety of Machinery - Safety related parts
 Safety of Machinery - Interlocking device
 Safety of Machinery - Minimum separation distances
 Safety of Machinery - Whole body access

DAY TWO TOPICS:
 Robotics / Safety Information / Industrial Robots
 Industrial trucks:
 Safety requirements - Driverless trucks
 Safety of Machinery - Integration of machinery
 Safety of Machinery - Security Aspects

Industry networking breakfast: opportunity to meet and get involved in a sustainable future

Date & Time: 6th May 9:30am for an 8am start to 10:30am finish
 Venue: Strathfield Golf Club, 52 Weeroona Road, Strathfield
 Cost: for members \$40 for non \$80

Wodek Jakubik Innovations Manager
Chandresh Wadhvana Business Development Manager

Hear from Wodek and Chandresh as they share with you the plans for Coregas to provide renewable gas for industry, domestic, transport and energy storage.

Sean Stove
 Head for E-Mobility Division, ABB Australia
 Sean will present to you about sustainable transport and the future of smart mobility.

Greg McGarvie
 Director of ACE EV
 Greg will focus on his project to roll out EVs through his collaboration with local governments and his launch of EMMA (Electric Mobility Manufacturers Australia) and with its prime objective to encourage EV manufacturing in Australia, working toward a zero emission future.

iba

iba System

See the big picture
Get 360° Transparency with the iba system

The iba system for process data acquisition and analysis consists of perfectly adjusted hardware and software components for acquiring, recording, analyzing and processing measurement data.

Due to the modular design and the simple configuration, the iba system can be adapted comfortably to the various tasks and is scalable in size at any time.

BUSINESS BENEFITS

- Enhanced productivity
- Reduced plant downtimes
- Saved energy and raw materials
- Improved and documented product quality
- Prevention of critical plant conditions

OTHER PROMOTIONAL MATERIALS

We also design custom branded items, uniforms, giveaways, display items to enhance your brand's presence at events and in the workplace. Our designs are tailored to reflect your brand identity effectively.

Examples here; a mouse mat and below the trestle cover for iba Oceania.

EXPO STALL DESIGNS

We design eye-catching expo stall elements like table panels, end graphics, and wall panels, as showcased in our work for 3ME. Our designs ensure your brand stands out and leaves a lasting impression.

EMAIL BANNERS

We design professional email signatures, ensuring a polished and consistent brand identity in digital communications. This designs are used to enhance digital communications and brand visibility.
